At AARC, we have seen adolescents at a frightening low point in their lives. Thanks to our special program of recovery, we have seen these same kids graduate with hope instead of despair, filled with confidence that will stand them in good stead throughout their lives. It is painful, hard work on their part that breaks their drug and alcohol addiction and brings them back to living healthy productive lives.

We need your help to continue turning lives around. Please join us for our  
***TOURNAMENT OF MIRACLES.***

*"I grew up very family oriented, spending as much time as possible with my sisters and extended family. Living with a great deal of insecurity, I turned to drugs and alcohol to feel better about myself. Very quickly drugs became everything and my family was no longer important to me. After going through treatment at AARC, I now have a second chance at life. Today I am working on a career for my future and pursuing an education. I am closer to my family than ever before and I have an amazing support group. Now with a different outlook on life, without drugs and alcohol, I have found purpose and hope for the future. For that I am extremely grateful."*
